

EURES the Netherlands

EURES (European Employment Services) supports the principle of free movement within the European Economic Area in various ways.

Coordinated by the European Commission, the network offers over 800 active advisers all over Europe.

In the Netherlands EURES is part of the public employment service UWV WERKbedrijf.

The EURES advisers can be contacted in person by employers and jobseekers for - Information and advice

- Mediation and recruitment

They give specific support and advise in matters concerning recruiting, applying, working and living in another country.

The decision to work outside your own country requires thorough advance preparation.

The same is applicable for recruiting personnel in another memberstate.

Where will you find staff or work?

What is the customary application procedure in other countries?

What are the effects on the company policies, company culture, social insurance, amenities, accommodation and health insurance?

EURES advisers can support you these matters!

EURES the Netherlands is participant of the fair Università Aperta 2010.

At this Career Day we will gladly provide you with information regarding the above mentioned subjects.

In personal contacts you will be advised in matters that you bring up.

You are welcome to visit the EURES stand as well as the workshop!

Looking forward meeting you.
